HUMANITARIAN ACTION FOR "NURDOR" ASSOCIATION - BUYING MPV VEHICLE FOR TRANSPORTING CHILDREN WHO SUFFER FROM CANCER

Dear friends,

Every year **160.000** children suffer from cancer in the world, and **90.000** of them leave us forever.

In Serbia, during the year of 2013, **339** children suffered from cancer.

***"Children who suffer from cancer are not just numbers,
but their lives depend on numbers!"***

The children who suffer from cancer and their parents will tread more easily through the most painful period of their lives solely if we lend them a hand and give them a sincere hug.

"NURDOR" is a national association of parents whose children suffer from cancer. It includes doctors, medical staff and all other people who want to contribute. This association gives practical, emotional and material support to all of the parents and their children on the whole territory of the Republic of Serbia. More information about this association can be found at www.nurdor.org.

Rotary club "Niš-Centar", a part of the world's biggest humanitarian family "Rotary International", is not only successfully pursuing realization of projects in the local community and abroad, but also has been supported and helped the "NURDOR" association for a significant time.

At this moment, Rotary club "Niš-Centar" is starting a fundraising project which purpose is procurement of a necessary vehicle for the "NURDOR" association for transporting children from Niš and south-eastern Serbia who suffer from cancer to their therapies.

Value of the project is: 29.622,75 USD / 23.325,00 EUR for procurement of the vehicle:

- FIAT DUCATO PANORAMA 2.3 Multi Jet 130ks L1H1.

We would appreciate if you consider the possibility to help in realization of this project. Your donation would be of great importance in taking children with a weak immune system (due to aggressive drug treatment) and children with disability (as a consequence of the disease) to all the therapies they need as a part of their long-term treatment because they can't and they shouldn't use any form of public transportation.

This way along with you, we would like to bring the message to the children that they are not just

statistical number !

We have opened a special bank account where the funds for the mentioned vehicle can be transferred:

BUYING MPV VEHICLE FOR TRANSPORTING CHILDREN WHO SUFFER FROM CANCER

Bank account information (SWIFT and IBAN) can be found in the attachment of this mail.

For payments higher than 1.000 EUR/USD/, Rotary club "Niš-Centar" and NURDOR will make sure that a logo of your company will be on the new vehicle, as well as on the web pages with the link of your corporative web portal.

Thank you for taking your time to get to know with this project. I hope that we can jointly make a successful realization.

"The life gives us back only what we give to others."
